

# COIL COATING CHEMICAL

## Hot-Dip Galvanized Steel Sheet Processing Function

Including construction steel plate, hot-dip galvanized steel sheets that require high corrosion resistance

### Functional Treatment for Continuous Galvanizing Line (CGL)

Optimal environmental friendly and multi-functional surface treatment for galvanized steel

### Evaluation Items

- Corrosion Resistance (Salt Spray Test and Blackening Test)
- Chemical Resistance (Acid and Alkaline Test)
- Paint Adhesion Test (Square Cut, Erichsen Test)

## Color Steel Sheet Processing Base

### Functional Treatment for Color Coating Line (CCL)

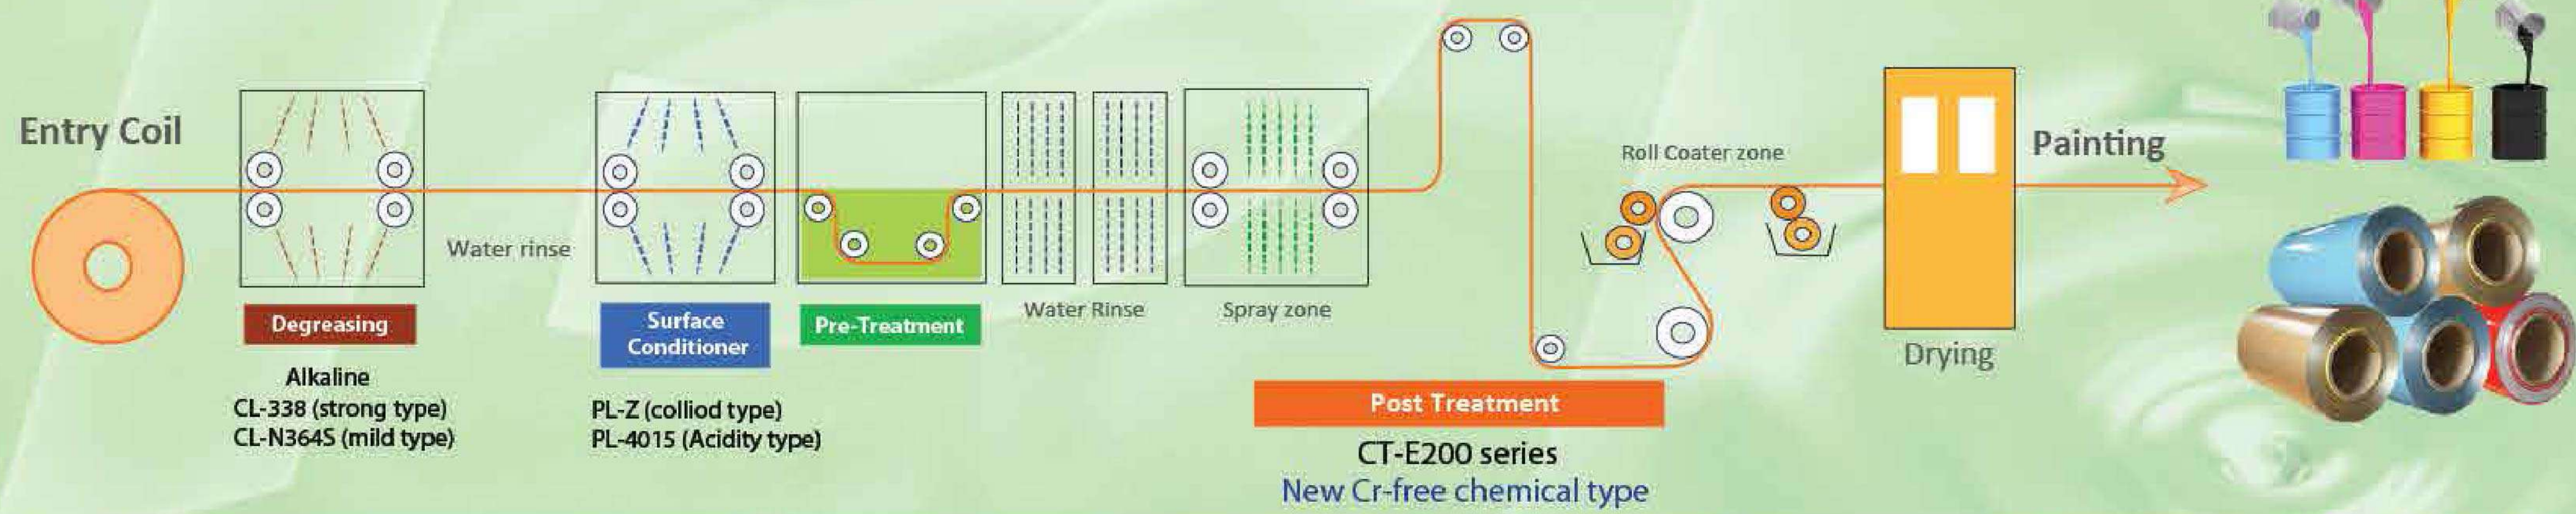

Fig. 3 Home Electric Appliances product

It's applied for home electric appliances and building - product field.  
The conventional colored sheet called PCM (Pre-Coat Metal) is mainstream product.
